Good Morning:

We have been breeding Herefords for over fifty years in Ontario and I am an Uncle to Bill Wells who purchased two groups of steers from you folks over the last few years. The most recent being in September, 2012. That group is pictured on the front cover of our Winter edition of the Ontario Hereford News, enclosed, and was taken this January. The best way to describe them is "Smashing good calves." It is a privilege for me to have them just a short drive away and to be able to show others what good Hereford calves look like.

I have enclosed a few pictures of both sets of steers.

Perhaps we will meet sometime.

Sincerely,

Ron Wells
